### **Recommendation Letter for Menatalla Gomaa**

We hereby confirm that Menatalla has been an active volunteer at the ReDI School of Digital Integration in the “ReDI in Cyberspace” online academy from July 2024 until now as a Full-Stack Web Development teacher. ReDI School is a non-profit organization based in Germany, Denmark and Sweden that provides programming and IT skills to create jobs and strengthen the economic empowerment of migrants and refugees ([www.redi-school.org](http://www.redi-school.org)).

For the last months Menatalla has taken on a voluntary position as teacher in our Full-Stack Web Development bootcamp which requires a commitment of 3-4 hours per week. Menatalla’s role as a teacher has required her to coordinate and implement a variety of tasks and activities that have demonstrated the extent of her IT knowledge and soft skills.

In addition to many other responsibilities, Menatalla has taken on the following tasks:

- teaching in English classes on a variety of front-end and back-en topics for more than 20 students
- supporting her volunteer teaching colleagues
- tracking student attendance and progress
- coordinating with the ReDI team to improve courses as well as the students and teachers experience.

Menatalla has taken on an integrative role in her teaching team and has shown a high level of commitment, flexibility and responsiveness since day one as a volunteer. She has proven to be a versatile and proactive volunteer with an exemplary work ethic and showed a high level of sensitivity towards our students in a multicultural context.

For the reasons mentioned above and because we trust in her qualities both as a teacher and as a person, we believe that Menatalla would be a tremendous addition to any organization and team. Please feel free to contact us for any further information on her performance and abilities.

Sincerely,

**Anne Kjaer Bathel**

Managing Director ReDI School of Digital Integration
